LOST Opportunities

In Barre, as well as in Missouri, the only way to convince the public is "to show them." This is what we intend to do, with the new assortment of imported "Switzerland" Pure Aluminum Ware, just unpacked. We want the public to try this ware at home and if not entirely satisfactory you are at liberty to return it and receive your money back.

The door of opportunity is of little use to the person who is asleep, but the balmy spring sun is now awakening a number of housewives to the important fact that Aluminum Ware is the only practical ware to use.

Why not look into these facts and convince yourselves and better still visit our store and inspect this new display? We can tell you more actual facts and the importance of the use of

Lamont's dogs and monkeys proved a big hit at the Pavilion last night. The act is undoubtedly the best and most amusing of its kind ever seen in the city. Very few of the old-time dog tricks are resorted to; therefore the act has a newness and freshness that is very pleasing. The monkeys furnished a lot of laughs for the audience and performed some remarkable tricks. They are very mischievous little creatures and the four that occupy the outside corners of the stage kept the crowd screaming with laughter. After the performance yesterday afternoon, the employees of the theatre enjoyed a show that was not on the program. One of the small monkeys got loose and immediately started up the ropes for the higher regions in the fly gallery, where it layed and jumped about from rope to rope, dodging the entire working staff of the theatre and its master, who were trying to catch it. The monkey seemed to like the chase immensely and finally, after about an hour's chase, came down of its own free will. The Vanity Fair pictures are undoubtedly the finest set of dramatic pictures ever exhibited in the city. The story they tell is as powerful and intensely interesting and teaches a great moral.
